Any proposal may be withdrawn at any time prior to the hour fixed for the opening, provided that a request in writing executed by the proposer, or his/her duly authorized representative, for the withdrawal of such proposal is filed with Purchasing-Central Supply. - L. A committee will review and evaluate all qualified proposals. The committee may request an interview with the top-rated companies. A reference check may also be conducted.
- M. A one-year award will be made with an option to extend for one additional year. Award shall be in the form of a City of Madera Purchase Order and attachments of Request for Proposal, and response thereto shall be part thereof as if fully set forth therein.
- N. The City may, at its sole option, terminate any contract/agreement that may be awarded as a result of this RFP at the end of any City Fiscal Year, for reason of non-appropriation of funds. In such event, the City will give

bidder at least thirty (30) days written notice that such function will not be funded for the next fiscal period. In such event, the City will return any associated equipment to the Contractor in good working order, reasonable wear and tear excepted.

- O. In accordance with the provisions of Section 1773 of the Labor Code of the State of California, the Owner has obtained from the Director of the Department of Industrial Relations; the general prevailing rate for each craft, classification, or types of workers required to execute the contract. Said prevailing rate of per diem wages will be made available to any interested party upon request, and a copy thereof shall be posted at the job site.

- P. Prior to beginning any work, or delivering any equipment or material to be furnished under this proposal, the bidder shall secure the appropriate Business License from the City of Madera. Business license information may be obtained by calling (559) 661-5454. Should the bidder already have his license, please indicate the license number and expiration date below:

City License No. \_\_\_\_\_ Expiration Date \_\_\_\_\_

Any Federal or State of California License/Certification required to provide the services will be required. A Class A Contractors license would be preferred, or a combination of the Class C-12 for the earthwork and paving in addition to a C-8 for the concrete work would also be considered. A Certificate of Insurance in accordance with the Insurance Requirements for

Service Providers document included in this RFP as Attachment B will also be required.

- Q. Bidder's Proprietary Information: Upon award, all documents provided by the successful bidder shall become public record. All documents provided by any bidders, other than the successful bidder, shall become public record in their entirety and subject to disclosure, unless said documents are retrieved by the bidder within ten (10) business days of the award. This shall also include, but is not limited to documents for projects for which all proposals are rejected and projects for which an award is not made for any reason. In the event that one or more proposals are returned to the bidding parties, it is the intent of the City that such documents shall not become public records of the City unless required by the California Public Records Act or other provisions of law.
- R. It is the City's policy to encourage the purchase of supplies, services and equipment from vendors located within the boundaries of the City. Local vendors are sellers, vendors, suppliers and contractors who maintain places of business located within the limits of the City and who have a current City of Madera business license. The local vendor outreach policy shall not apply to those Agreements where State or Federal law, or other laws or regulations preclude such a preference.

Contractors will, to the greatest extent feasible, attempt to incorporate local area businesses as subcontractors and suppliers. Contractors will, upon request, provide records showing the outreach efforts made to local businesses to demonstrate that they have made a reasonable effort to inform local businesses of the opportunity.

- S. The City intends that other public agencies (county, special district, public authority, public agency, school district or other political subdivision of the state of California) shall have the option to participate in any agreement created because of this Request for Proposal. The City of Madera shall incur no financial responsibility in connection with a purchase order from another public entity. Vendor's agreement or failure to agree to the "piggyback" agreement will not be a factor in the award. This piggyback will remain available for one year from the date of the Bid award.

Check one of the following:

- i.  Agree to extend all prices, terms, and conditions of my proposal to any other public agency located in the State of California with no exceptions.

- ii.  Agree to extend all prices, terms, and conditions of my proposal to any other public agency located in the State of California with the following exceptions noted, as attached.
- iii.  The Vendor does not agree to extend pricing, terms and conditions in our Bid to any other agency.

**2. SPECIFICATIONS FOR ASPHALT- CONCRETE PATCHING**

- A. The City of Madera is in need of small, permanent, Asphalt-Concrete patching services for the repair of sewer, water and other similar small to medium service trenches and failed asphalt areas in streets and alley ways throughout the City.
- B. All permanent repairs require saw cutting when applicable, removing materials to a minimum six-inch depth, compacting/stabilizing and full depth a/c repairs. Any situation necessitating a variation from these requirements would be at the direction of authorized personnel within the City of Madera Public Works Department.
- C. The successful bidder shall request an Underground Service Alert (USA) on all repair sites, assigned by the Public Works Department, at least two days prior to beginning work.
- D. All expenses for materials, including either SS-1H or CQS-1H Fog Seal 50/50 mix, removal and disposal of existing pavement, clean-up, traffic control, advanced warning and construction barricades and signing shall be included in your bid.
- E. The contractor must comply with all safety requirements as set forth in the latest editions of the Manual on Uniform Traffic Control Devices for Streets and Highways, as well as the MUTCD California Supplement.
- F. The successful bidder will be required to post a Performance Bond in the amount of \$75,000 to be held by the City until the end of the 2018/2019 fiscal year. A sample bond is included as Attachment A.
- G. All work must be completed within 30 days of receipt of assignment from the Public Works Department. No mandated schedule is set. A list of areas to be patched will be given to the successful bidder and they will set their own schedule according to the amount of work on the list. They will be expected to inform the Streets Division of their schedule to allow for

inspection by the Division and must complete all assigned work within 30 days of receipt of assignment.

- H. When permanent asphalt patching is required for an area that has had a utility repair such as a water or sewer line repair, the repair will already have been completed by the City or other utility. The trench or patch area that is requiring the permanent AC will have been filled in with either base rock or cold patch material temporarily which would have to be removed to the correct depth to complete the final repair. In this case traffic control would need to be provided for final repair only. Extra saw cutting may be required if there was damage to repair area prior to final phase of work. Note this does not apply when completing the repair for a failed area not covered under a utility repair. See items A through D under Section 2, Specifications for Asphalt-Concrete Patching.

**3. ESTIMATES BASED ON PRIOR YEARS**

These figures are estimates only. They are based on past history, but are not a guaranty of the numbers or types of work that will be needed.

- A. For small, permanent Asphalt-Concrete patching services for repair of sewer, water and other similar small to medium service trenches and failed asphalt areas estimated at 7,000 to 20,000 square feet – average annual spend of approximately \$200,000.
- B. Failed asphalt areas in alley ways estimated at 28,000 square feet – average annual spend of approximately \$250,000.
